

Front of gate remote: Press black button to enter gates. Please note that remotes are only programmed to open the 2 gates closest to your home. At gates 13/14 you must be right up at the gate for the remote to work; there is a white line that your car must be at in front of the gate. This is because gates 13/14 have a shared panel. (\$35 each to replace)

Back of gate remote: contains information such as the device number to allow Management to program into gates. Arrow shows the 5 digit device code that management will need when you call in with any questions regarding your remote(s) not working.
